

Ben Bohannon

Enterprise Transformation & Technology Leader

I help organizations turn complexity into clarity — translating strategy into execution across cloud, data, IoT, and financial systems to deliver measurable business impact.

Selected Highlights:

\$5B Campus Systems – Delivered \$50M campus systems for the largest construction project in the country.

\$30M Portfolio Management System Rescue – Rescued global portfolio program impacting 8,000 users; re-architected integration & analytics and delivered in 7 months.

\$4.5M Azure Savings – Consolidated 200+ subscriptions & 300 DevOps projects; achieved 100% InfoSec compliance across global production systems.

IoT Digital Sensor Venture (patented) – Led product & architecture for multi-function sensor; reduced unplanned downtime by ~30% with ML-driven anomaly detection.
