ENTERPRISE TRANSFORMATION & INFORMATION TECHNOLOGY LEADER

Transforming large, complex IT and business challenges into streamlined, high-value enterprise solutions.

Trusted IT leader with 20+ years of success spearheading enterprise-wide digital transformations, global modernization initiatives, and multimillion-dollar technology programs that unlock measurable business value. Recognized for aligning IT strategy with corporate objectives, accelerating adoption of cloud, IoT, ERP, and emerging technologies, and rescuing underperforming programs to deliver sustainable outcomes. Known as a servant leader who builds, empowers, and inspires high-performing local and global teams to exceed business expectations. Adept at driving operational excellence, cost optimization, cybersecurity, and regulatory compliance, while enabling scalable growth, innovation, and competitive advantage across Fortune 500 and global enterprises.

- **Delivered an ambitious \$50M portfolio of 12 systems projects in 14 months to power ExxonMobil's new \$5B campuses** in Houston and Calgary, supporting 12,500 staff with projects spanning residential, physical security, and building systems.
- **Rescued a \$30M enterprise portfolio management program impacting 8,000 global users**, delivering turnaround of complex architecture, integration, and analytics strategy within 4 weeks and driving project completion in only 7 months.
- **Earned ExxonMobil's prestigious Enterprise Innovation Award** for successfully driving the digital transformation of global capital management processes, modernizing legacy systems and unlocking enterprise-wide efficiencies.

**Program & Project Management (Agile, SAFe, Waterfall) | Enterprise Architecture & Solution Design | Cloud Strategy & Migration
API Development & Systems Integration | Process Improvement & Workflow Optimization | Data Analytics & Reporting
Change Management & Digital Transformation | Vendor & Stakeholder Management | Compliance & Risk Management**

CAREER HISTORY

EXXONMOBIL – HOUSTON, TX

2001 – 2023

BUSINESS TRANSFORMATION DESIGN LEAD (2023 – 2023)

Spearhead and lead enterprise financial transformation initiatives, shaping strategy, systems, and processes to modernize ExxonMobil's global corporate planning and performance management.

Selected Achievements & Impact:

- **Enabled 2,000 global finance professionals** by directing vendor selection and system implementation planning for ExxonMobil's next-generation FP&A system, strengthening forecasting accuracy, agility, and reporting consistency.
- **Harmonized 3 enterprise-wide corporate processes** through fit-to-standard business process transformation analysis, aligning ExxonMobil's planning practices with industry benchmarks and operational best practices.
- **Drove digital business transformation** in corporate planning and performance management, modernizing end-to-end financial operations to deliver greater speed, transparency, and strategic decision-making capability.

ENTERPRISE ARCHITECT / PRODUCT LEAD, DIGITAL SENSOR VENTURE (2021 – 2023)

Delivered IoT architecture, application, and multi-function sensor capable of detecting almost anything and scaling across 30+ oil and gas sites by leading new product design, development, industrial certifications, and patent acquisitions.

Selected Achievements & Impact:

- **Cut unplanned downtime by 30%** across critical upstream operations were deployed by leveraging patented machine learning algorithms that enabled proactive anomaly detection and predictive maintenance.
- **Accelerated time-to-market by 12 months** through global vendor partnerships and outsourced application development, enabling faster deployment and adoption of cutting-edge solutions.
- **Directed enterprise-level innovation** by providing people, team, and technical leadership to deliver cloud and IoT solutions for ExxonMobil's Upstream business, advancing digital transformation across oil and gas field operations.

UPSTREAM AZURE PRODUCT MANAGER (2020 – 2021)

Managed global Azure platform operations and strategy refresh, overseeing governance, cost optimization, security, and consolidation plans to enable ExxonMobil's mission-critical Upstream business and digital transformation objectives.

Selected Achievements & Impact:

- **Delivered \$4.5M in enterprise cost savings** by driving large-scale platform rationalization, enhancing cost line-of-sight, and strengthening governance across global Azure environments supporting mission-critical operations.
- **Consolidated 200+ subscriptions and 300 DevOps projects** from 50+ cross-functional teams in only 12 months—achieving results **3x faster than projected** while streamlining cloud solution development and delivery.
- **Achieved 100% InfoSec compliance** across global production systems by partnering closely with cybersecurity leaders to harden platform controls, enforce enterprise standards, and safeguard sensitive upstream data assets.

TECHNICAL PROGRAM MANAGER, INTEGRATION & ANALYTICS (2019-2020)

Rescued \$30M enterprise portfolio management program impacting 8,000 global users, delivering turnaround of complex architecture, data/integration, and analytics strategies within 4 weeks and accelerating project delivery to only 7 months.

Selected Achievements & Impact:

- **Increased team velocity by ~200%** by transitioning underperforming groups to agile execution, ensuring all priority products were delivered on time, within budget, and to enterprise quality standards.
- **Built 70 APIs across 12 systems** using MuleSoft Anypoint, streamlining enterprise connectivity across cloud and on-prem environments while enabling real-time data flow and improved operational efficiency.
- **Streamlined enterprise reporting by 80%**, reducing 300 fragmented reports down to 60 consolidated dashboards in Power BI, Tableau, and Excel—enhancing executive visibility and decision-making accuracy.

ENTERPRISE PROJECT MANAGEMENT OFFICE (PMO) MANAGER (2015 – 2018)

Oversaw enterprise Project Management Office (PMO) strategy and execution, managing multimillion-dollar technology portfolios and delivering large-scale system implementations to grow ExxonMobil's global Downstream operations.

Selected Achievements & Impact:

- **Directed project office activities for a \$65M+ portfolio of global technology investments**, including enterprise-scale SAP and SAP HANA implementations, ensuring delivery within budget and alignment with critical corporate deadlines.
- **Transformed global capital management** by replacing a 25-year-old legacy system with a custom-built web solution, reducing processing time from weeks to hours and delivering **\$5M in annual labor efficiency savings**.
- **Standardized and streamlined scheduling and information management across 1,000+ complex**, high-value projects by deploying and optimizing MS Project Server, driving consistency, efficiency, and executive visibility enterprise-wide.

CAMPUS SYSTEMS IMPLEMENTATION MANAGER (2013 – 2014)

Building applications and systems to power a modern campus experience for campus residents and support staff. Led team responsible for application design/build, implementation, integration, and startup operations activities.

Selected Achievements & Impact:

- **Directed \$50M system design/build/deploy efforts for \$5B new-build Houston and Calgary campuses** (supporting 13,000 staff).
- **Drove system integration/implementation work for 12 systems** in the residential, building management, facility security space.
- **Startup of systems on time and budget** to support major campus go-live milestones.

Held progressively complex roles at ExxonMobil, advancing through roles in project management, audit, budget/workforce planning, retail systems, and enterprise systems

CERTIFICATIONS

AI/ML in Financial Services; SAFe 6.0 Certified; TOGAF Enterprise Architect (*Pending*); Vinh Giang Communications Masterclass; Microsoft Azure Fundamentals (AZ-900); Microsoft Azure Administrator Associate (AZ-104)

EDUCATION

MISSISSIPPI STATE UNIVERSITY | Summa Cum Laude | Bachelor of Business and Information Systems
